

## Invitation: Professional Dialogue Between German and Taiwanese Educators

*October 21, 2026 at 1.30-5.30pm | at Wenzao Ursuline University of Languages*

This workshop provides a platform for German and Taiwanese teachers to engage in professional dialogue and cross-cultural exchange. Participants will share perspectives on educational practice, teacher professionalism, and school life in different educational contexts while gaining insights into each other's education system.

The workshop aims to promote mutual learning, strengthen international education literacy, and foster professional networks that support future international exchange and cooperation between schools.

### *Benefits for participants*

- Exchange experiences with German teachers and school directors
- Gain insights into educational practice in Germany
- Strengthen international education literacy through direct dialogue
- Establish professional connections for future international exchange

**Context of this offer:** In October 2026, 12 teachers and school directors from Germany participate in an educational program taking place in Taipei and Kaohsiung. The aim is to learn about Taiwan and its school system to enable future international exchange opportunities. Both the program and this workshop will be organized by a representative of InterCultur gGmbH, a German non-governmental organization that offers projects and trainings for international competence-building.

*German and English language competency may be of use; however, there are no language requirements as translators will be available.*
